Dear members of the IOPSA Western Cape

## **BBBEE Verification and Certification Services**

We would like to bring to your attention that, based on the service proposal we have received from Kbonga BEE Verification Agency (hereinafter referred to as Kbonga), we have decided to appoint this firm as the verification agency of choice for the IOP(SA) Western Cape.

Kbonga's main objective is to play a crucial role in the implementation phase of BBBEE in the plumbing industry by assisting plumbing companies and its suppliers to have their BBBEE contributions evaluated, verified, validated and certified. Starting with the Western Cape, Kbonga would like to market extensively the BBBEE contributions and progress of the IOP(SA) Western Cape and its individual members.

While there is no requirement for each individual member to be BBBEE compliant, we believe it is and it will become increasingly difficult to conduct business in South Africa without becoming BEE compliant.

As we well know, most of you have been contributing directly or indirectly to many of the elements of BEE and one of the practical steps we advise our members to take is to have your BBBEE status evaluated, verified and certified in order to be prepared for when your BEE certificate is requested.

Please note that this would only be at your convenience.

This would also be a benefit only to the IOP(SA) registered and up to date paid up members.

Our verification agent has agreed to provide a special fee for these registered IOP(SA) members and would be conducted at your premises accordingly.

Kind Regards

**MR RICHARD CRAIG ( 072 997 6996)**

**CHAIRPERSON OF IOP(SA) WESTERN CAPE REGION**
